Due to these issues, pricing will be 70,000 To 85,000 Taka.*

*** It indicates, in some issues pricing may increase more.**

At first we diagnose your drive to identify the problem exactly then we proceed to work after making agreement with you. Diagnose will take 1 working day.

You will be charged 500 Taka (Five Hundreds Taka) for diagnose if you are not interested to take the service from us after diagnosing. If you proceed to take the service after diagnose, then the charge will be eliminated.

Feel free to contact with us for any further information
